Introduction

Week 4 of LTP Training focuses on concepts and long-term maintenance of language projects. Discussions touch on data maintenance, inheritance, sovereignty, community engagement strategies, and backups.

Closing Week

Review the following articles to help complete the weekly tasks and enhance your project:

This week, we will look at:

Storage

- [Module 11: Storage](#)
- [Preparing Backups & Preventing Bit Rot](#)
- [Module 12: Summary and Additional Resources](#)

Data

- [Who owns the language recordings?](#)
- [Add an image from an external source](#)
- [Data Sovereignty](#)
- [Data Inheritance](#)

Engagement with Technology

- [About FirstVoices: Web User Tutorial](#)
-

Weekly Tasks

Tasks for LTP Training: Week 4

If you have a
FirstVoices component:

**Show 1 person
in your life how to access
and navigate FirstVoices!**

If you have a
Digitization component:

**Think of 5 places that
could use your
digitized resources!**

For teams with multiple components, please complete all relevant weekly tasks.

For teams with a FirstVoices Component, practice sharing FirstVoices!

- **Show 1 person in your life how to access and navigate FirstVoices!**

For teams with a Digitization Component, brainstorm archival mobilization initiatives!

- **Think of 5 places that could use your digitized resources!**

If you have questions about engagement strategies or would like assistance brainstorming or planning community sharing events throughout your grant project, please contact kyra@fpcc.ca or ben@fpcc.ca. The LTP team is happy to help!

What's a Mind Map?

A mind map is a visual display of all the connections and networks you can come up with to connect topics, exercises, and activities. In our closing webinars, the LTP team often leads groups to all brainstorm together on how to mobilize, share, and connect language technology work with other language project and throughout the community.

For past examples, check out the images below:
